ABOUT US

OVERVIEW

MBH International is a group of Architects, Urban Planners, Interior Designers and Industrial Designers, established since 2003, operating globally, with offices in Warsaw Poland as well as Johannesburg South Africa, and with a partner office in Austin Texas USA. MBH INTERNATIONAL Architects have design expertise in a variety of building typologies which include Healthcare, Mixed-Use, Commercial, Industrial, Arcology, Prefab, Marine and Residential architecture.

QMS

As of 2019, MBH INTERNATIONAL Architects have subscribed to ISO 9001-2015 standards as part of its drive towards increased quality management on all our projects.

URBAN DESIGN

As long standing members of the Washington-based Congress for the New Urbanism, which advocates public transit and pedestrian sympathetic mixed use urban architecture, MBH INTERNATIONAL Architects are passionate about Transit-Oriented Development, Inner City Re-development and the proper application of pedestrian safety.

CLIENTS

Our clients range internationally from individual home owners to corporations such as Philips, Siemens, Pristem, Life Healthcare, Netcare, Ampath, Dischem, Medicross as well as various NGOs and governments such as the US Department of State (CDC & USAID).

HEALTHCARE

MBH are specialist healthcare design architects. We undertake the design and construction monitoring of Acute Hospitals, Day / Sub-acute Hospitals, Psychiatric / Mental Wellness Hospitals, Specialist Hospitals (such as Cardiology, Oncology, Ophthalmology, Psychiatric etc) and Primary Healthcare Clinics, globally.

OUR VALUES

We are committed to the creation of **CAR FREE CITIES** and **TRANSIT ORIENTED DEVELOPMENTS**, where many clusters of neighborhoods are inter-linked by means of parks, cycle lanes, walkways, trams and metro rails that form pedestrian friendly and safe [sub]urban environments, effectively separating pedestrians from cars, with a balanced mix of uses such as residential, retail, working, schooling, healthcare, worshiping and recreation - all within a walkable configuration, that decreases the risks to pedestrians and private stresses of time spent in traffic, and that minimises the public borne expenses of road construction and atmospheric pollution.

We are further committed to creating **CAR FREE** inter-city AND inner-city modes of public transportation, especially tramways & high speed inter city railways, ensuring a reduction of demands placed on road accident funds and emergency services.

To this end, we are also committed to helping restore South Africa's passenger rail infrastructure and helping return trams to all major South African cities.
